### 2. Summary of Significant Accounting Policies

#### *Basis of Accounting*

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles (GAAP).

#### *Financial Statement Presentation*

Net assets and revenues, expenses, gains and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets and changes therein are classified as follows:

*Net assets without donor restrictions* - Net assets not subject to donor-imposed stipulations. Net assets without donor restrictions may be designated for specific purposes by action of the board of directors.

*Net assets with donor restrictions* - Net assets subject to donor stipulations that will be met by actions of the Organization and/or the passage of time. Some net assets with donor restrictions include a stipulation that assets provided be maintained permanently (perpetual in nature) while permitting the Organization to expend the income generated by the assets in accordance with the provisions of additional donor imposed stipulations or a board of directors approved spending policy. No such net asset restrictions existed at December 31, 2020.

Revenues are reported as an increase in net assets without donor restrictions unless use of the related assets is limited by donor-imposed restrictions. Expenses are reported as decreases in net assets without donor restrictions.

## **High-Tech High Heels North Texas**

### **Notes to Financial Statements**

---

Gains and losses are reported as increases or decreases in net assets without donor restrictions unless their use is restricted by explicit donor stipulation or by law.

Expirations of net assets with donor restrictions (i.e., the donor-stipulated purpose has been fulfilled and/or the stipulated time period has elapsed) are reported as reclassifications between the applicable classes of net assets.

#### ***Financial Instruments and Credit and Market Risk Concentrations***

Financial instruments which are potentially subject to concentrations of credit risk consist principally of cash. Cash is placed with high credit quality financial institution to minimize risk.

At December 31, 2020, cash balances exceeded federally insured limits by \$457,243. The Organization monitors credit worthiness of each financial institution with which it conducts business and has not experienced any losses in its accounts. The Organization believes it is not exposed to any significant risk on cash.

During the year ended December 31, 2020, contributions from one donor accounted for 34% of total contribution revenue.

#### ***Revenue Recognition***

The Organization recognizes contributions when cash, securities, other assets or an unconditional promise to give is received. Conditional promises to give – that is, those with a measurable performance or other barrier and a right of return – are not recognized until the conditions on which they depend have been met. Unconditional promises to give that are expected to be collected in future years are recorded at the present value of the amounts expected to be collected. All contributions are considered available for unrestricted use unless specifically restricted by the donor.

Contributions of services are recorded at estimated fair value if the services received create or enhance nonfinancial assets or require specialized skills and would typically need to be purchased if not provided by donation. Numerous individuals donate significant amounts of time to the Organization. No donated services were utilized that met the criteria to be recorded as support on the Organization's financial statements.

#### ***Grants to Others***

The Organization records unconditional grants to others when approved by the grant committee and acceptance of the grant terms by the recipient organization.

### ***Estimates***

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. ### ***Income Taxes***

The Organization is exempt from federal income taxes under Section 501(a) of the Internal Revenue Code (IRC) as an organization described in IRC Section 501(c)(3), except to the extent it has unrelated business income. In addition, the Organization has been determined by the Internal Revenue Service (IRS) not to be a private foundation within the meaning of Section 509(a) of the IRC. The Organization did not have unrelated business income for the year ended December 31, 2020. Accordingly, no tax provision or liability has been reported in the accompanying financial statements.

GAAP requires the evaluation of tax positions taken in the course of preparing the Organization's tax return and recognition of tax liability (or asset) if the Organization has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. Management has analyzed the tax positions taken by the Organization, and has concluded that as of December 31, 2020, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.
